

INSTRUCTIONS:

1. Plug the bare terminal end of the power jumper, 510096, into the red wire on the accessory connector, found on your Classic Update Dash harness.
2. Plug the power top harness, CA71716, into the motor connection and into the power top switch.
3. Plug the remaining red wire, on the CA71716, into one of the empty connectors on the red power jumper harness.
4. Remove the 30A fuse from the "BAT 2" location in the fuse panel and replace it with the provided 30 A circuit breaker. This breaker will need to be trimmed as show below, before inserting.

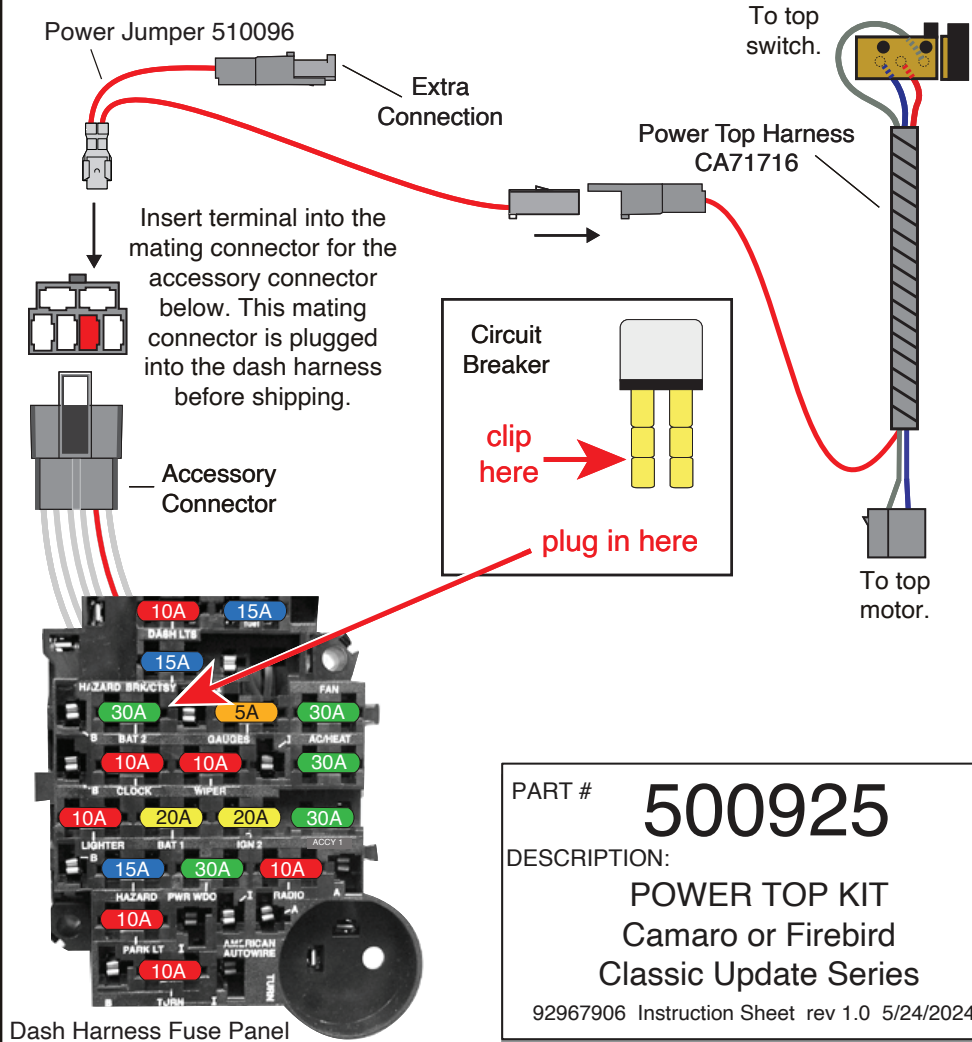

PART # **500925**
 DESCRIPTION:
POWER TOP KIT
 Camaro or Firebird
 Classic Update Series
 92967906 Instruction Sheet rev 1.0 5/24/2024
