

NEGATIVE BATTERY CABLE

1987-90 JEEP YJ, 2.5L, 4.0L

www.americanautowire.com 856-933-0801

FEATURES:

1. AWE 4 gauge primary cable,
2. Primary and secondary wire cables are constructed of SGX (Cross Link Polyethylene) providing added wear resistance and load protection.
3. Unique battery connection bolt that allows for high draw accessories to be bolted directly to the battery. This prevents overtightening and damage to the battery terminal.

PART #

510827

DESCRIPTION:

Battery Cable Assembly, neg.,
Jeep YJ - 1987-90
